

BAND-IT[®]

THE ULTIMATE BAND FASTENING SYSTEM

PRODUCT MATRIX

BAND-IT[®], the original and certified manufacturer of stainless steel banding and fasteners, offers the municipal customer quality, variety and reliability products.

BAND & BUCKLE

Ultra-Lok's full tension lock provides a clamp that's 20% stronger than traditional band & buckle assemblies, making it ideal for sign hanging and traffic management applications where withstanding wind, vibration, and harsh conditions is crucial.

HOSE ATTACHMENT

Whether the need is to move large volumes of water or other materials, BAND-IT[®] hose clamps can be used on a variety of hoses including: suction/discharge, wastewater and wash down. Materials available include galvanized carbon steel and multiple types of stainless steel.

CABLE MANAGEMENT

BAND-IT[®] products can be used in a variety of ways to bundle wires, secure cables, fasten security devices, and a host of other applications. Available in coated and uncoated 201, 304 and 316 stainless steel.

Total Fastening Solutions

Choosing the right products can mean success or failure in your industrial MRO applications. At BAND-IT® we understand the importance of quality, value and service.

The BAND-IT® commitment to excellence, quality and environmental standards are evident with our adherence to the following certifications: ISO 9001, ISO 14001, TS16949.

BAND-IT® is the world's leading manufacturer in quality clamping and banding systems. Since its inception in 1937, BAND-IT® bands and clamps have been used in nearly every industry today including: Industrial, Agricultural, Construction, Defense, Hose, Electrical, Municipal, Utility, Engineered Applications, Automotive Aftermarket, OEM, Petrochemical, Downhole, Identification, Insulation, Marine and Subsea.

Contact our customer focused team of experts to discuss solutions for your industrial MRO product needs at 1-800-525-0758 (within the United States) or 303-320-4555.
