RE: Proposition 65

Dear Concerned Parties,

Band-It is aware of California's Safe Drinking Water and Toxic Enforcement Act of 1986 (the "Act"), commonly referred to as Proposition 65. The Act requires "Warning Before Exposure to Chemicals Known to Cause Cancer or Reproductive Toxicity. No person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first giving clear and reasonable warning." The Proposition 65 chemical list can be found at:

<https://oehha.ca.gov/proposition-65/proposition-65-list>

The current Proposition 65 chemical list contains over 900 items. Many of these items are listed with no minimum threshold or "safe harbor" levels and therefore even a trace amount is cause for a Proposition 65 warning to be issued. Band-It continuously monitors our suppliers and our manufacturing processes in order to comply with the various environmental regulations in the markets we serve. Band-It will now include a warning on all tool products on the premise that one or more chemicals from the Prop 65 list may be present in one or more of our product's components.

Band-It is dedicated to supplying our customers with products that are manufactured in accordance to the highest quality standards guaranteeing customer satisfaction in a globally competitive marketplace.
