

BAND-IT®

Maintenance and Repair

Complete Line of Fastening Solutions for Maintenance and Repair Applications

- Fast, easy application
- Temporary and permanent solutions
- Corrosion and UV resistant
- Broad product selection

Hose Attachment/Fluid Transfer

Whether your need is to move large volumes of fluids or solids, BAND-IT® hose clamps can be used on a variety of industrial hoses including: suction/discharge hose, wastewater hose and washdown hose. Hose clamps are available in several materials including 201, 201 1/4 hard, 316 stainless steel and galvanized carbon steel.

Traffic Management & Sign Hanging

BAND-IT® has a complete line of traffic management products to hang signage, traffic signals, directional signs, banners, traffic monitoring systems, communication boxes, motion sensors and traffic cameras. Products are available in 201 and 316 stainless steel.

Cable Bundling & Device Mounting

BAND-IT® products can be used in a variety of ways to secure cables, communication lines, surveillance lines, cable bundling, fountain lines, and a host of other applications. Cable ties, buckles and banding are available in 201, 304 as well as coated and uncoated 316 stainless steel.

Identification

BAND-IT® COLOR-IT® products are 201 stainless steel bands coated with a variety of colors. You can use COLOR-IT® banding to identify maintenance schedules or pipe runs in the field that will stand up to the harshest of environments. BAND-IT® offers easy-to-use stainless steel identification numbers, letters, symbols and blank tags, along with stainless steel cable ties to provide a fast and simple solution for device identification.

Maintenance & Attachment

BAND-IT® products are perfect when it comes time to fasten, secure, band, hang, bundle, clamp or identify something on the job. Anytime, anywhere, BAND-IT® provides **Total Fastening Solutions.**
